

Indicates the level of the Pharmacist's Assistant Course the learner is registered for:

- BL – Basic Level
- PB – Post-Basic

Decoding the "Learner Status Report"

All modules you must complete will be listed.

If you were found NYC (not yet competent) in an assignment or assessment and then later COMPETENT, both efforts will show on the report.

The "Project Status" will indicate whether your profile is currently:

- Course 00-Inactive
- Course 00-On Hold (in case of suspension)
- Course 02-Finance Blocked
- Course 05-Active
- Course 01A-Reregistration

Please note that the report separates the outcome of an assignment and an assessments of the same module. This is applicable at:

- BL Session 2 Module 6
- PB Session 2 Module 8
- PB Session 8 Module 23

The following codes may be used in the "Results" column

- **COMP-Competent:** The learner achieved the required outcomes to be competent in the assessment type;
- **COMP-Attended:** The learner submitted the audio-visual answers and it was assessed internally and found competent;
- **COMP-Exempted:** The learner submitted the applicable documentation and achieved the necessary outcomes to be exempted from the module;
- **NYC:** The learner did not achieve the required outcomes yet to be deemed competent and is therefore 'Not Yet Competent' in the assessment type;
- **Booked:** The learner submitted a booking form and is booked to write the assessment of the specific module;
- **Not attended:** The learner has not yet submitted the audio-visual answers for the specific module;
- **Not Assessed:** The learner was not yet assessed on the specific assessment type;
- **Not submitted:** The Academy did not receive an assignment submission from the learner yet.

'Workshop' refers to Audio-Visual Presentations or Zoom Workshops and the Assessment date is the date on which you submitted the audio-visual answer sheets or attended the Zoom meeting.

The following reasons may be given in the "Description" column for a module being NYC (not yet competent):

- **DEMO:** Some modules have demonstrations as part of the summative assessment. This means that the learner was NYC in the demonstration;
- **DID NOT PITCH:** The learner booked but did not show up on the date of the summative assessment;
- **DOR:** The learner did not bring his/her Declaration of readiness form to be handed in as evidence or the tutor had not signed the form;
- **FA:** The learner did not bring his/her formative assessment to be handed in as evidence;
- **FARF:** The learner did not bring his/her formative assessment record form to be handed in as evidence or the tutor had not signed the form;
- **LA:** Some or all of the learning activities have to be re-done;
- **SHOWN AWAY:** The learner did not bring all the necessary documents as evidence for the summative assessment or the learner committed a fraudulent activity during the assessment;
- **WR:** The specific module's summative assessment must be re-written.

IMPORTANT

- You will receive a 'Learner Status Report' at each summative assessment you attend.
- It is your responsibility to inform the Academy if your tutor and facility information changed OR if you notice that the result captured of a previous assessment do not correlate with your Summative Assessment Result Form.
- The 'Learner Status Report' is printed at least two weeks before your next assessment. Bear in mind that the Academy might still await the previous month's assessment for capturing and therefore the results column might not be updated to the most recent data.
- Assignments should be submitted at least 10 working days before writing the Summative Assessment. The outcome of an assignment shown on the report might differ from the actual outcome e.g. the report might show the learner is NYC, but the learner received feedback indicating he/she is competent. Please bear in mind that the report might have been printed before the assignment was marked.
