

# MEDICINE IN TRANSIT COURSE

## COLLECTION, HANDLING, AND DELIVERY OF PHARMACEUTICAL PRODUCTS AND DEVICES

“Because pharmaceuticals are not soap.”

It is a legal requirement that all personnel handling pharmaceutical products, including those responsible for the products' transportation, must be TRAINED.

The S Buys Academy takes pride in announcing that it has developed a short course aimed at persons (full-time or contracted) who are responsible for the physical transport of pharmaceuticals between:

- Pharmaceutical wholesaler/distributor and pharmacy/dispensing practice; and
- Pharmacy/dispensing practice and end-user.

### Applicable legal guidelines

The following legal guidelines were used for the development of the training material:

- Delivery of medicines: Good Pharmacy Practice (*as published in the Government Gazette Notice 431 on 6 June 2017*): Secure and limited access, Orderly storage, Cold chain management, Trained personnel, Temperature control, Information to the patient, Proof of delivery
- Minimum standards for the procurement, storage and distribution of thermolabile pharmaceutical products (*as published in the Government Gazette Notice 50 on 27 February 2015*)
- WHO PICS Guidance – Good Distribution Practices (GDP) and Storage and Transport of Medicinal Products
