

Dear Healthcare Professional

COURSE FOR THE DISPENSING OF MEDICINE BY HEALTHCARE PROFESSIONALS

Herewith are details of the course for dispensing medicine by healthcare professionals.

1. Introduction to the course

According to the Medicines and Related Substances Control Act (Act 101 of 1965 Section 22C(2)), any healthcare professional who intends to dispense medicine must apply for a dispensing license with the Director-General of Health. The license will only be issued once the applicant provides proof of completing a supplementary dispensing course.

The **S Buys Academy** is an accredited provider of this supplementary course in dispensing with the South African Pharmacy Council. The course is accredited as a short course. **It is also accredited at the HPCSA as a CPD course and is worth 30 points.**

Upon completing the course, the learner will be issued a Dispensing for Health Care Professionals certificate. This certificate must be submitted with the application for a license to dispense medicine to the Director-General of Health.

Feel free to visit the Academy's webpage at www.sbuys.co.za for the step-by-step procedure to apply for a Dispensing Licence.

2. Minimum requirements

The minimum requirements to enrol for the Dispensing Course for Healthcare Professionals are as follows:

- **Medical Practitioner:**

- A qualified Medical Practitioner is a person who has obtained a Bachelor of Medicine at a university and is registered as such with HPCSA and

- **Nurses:**

- Completed compulsory Community Service for health professionals as governed by the Health Professions Act, 1974 (Act 56 of 1974)

****Please note a Nursing Auxiliary with a Higher Certificate in Nursing (one-year programme) does not meet the minimum requirements.**

If the above minimum requirements are not met, e.g. the prospective applicant is still completing their Community Service year, they should first apply for a Dispensing License with the National Department of Health. If the license is conditionally approved, the applicant can use it to be allowed to enrol for the Dispensing course for Healthcare Professionals.

3. Course structure

The course is divided into five study units, namely:

Study Unit	Title	Credits
1	Legal and Ethical Framework for Dispensing in South Africa	7
2	Basic Pharmaceutical and Pharmacological Considerations in Dispensing	7
3	Good Dispensing Practice	7
4	Generic Substitution and the Importance of Patient Compliance when Dispensing	4
5	Drug Supply Management Supporting Dispensing	5
		30 credits

All learners are assessed in three ways, namely:

- Formative assessment:** At the end of the learner's study letter is a multiple choice formative assessment with questions on each of the 5 study units. The learner has to complete it and email or fax it to the Academy. Competence must be proved before the summative assessment may be written.
- Assignment on dispensing in practice:** Each learner receives a document explaining what is required for the assignment and what needs to be completed. Competence must be proved before the summative assessment may be written.
- Summative assessment:** This is the final assessment in the form of case studies. Learners may use their textbooks as a reference. The summative assessment aims to test the learner's ability to apply the knowledge gained. Summative assessments are written in the presence of an invigilator as arranged with the S Buys Academy. A learner will be allowed 5 hours to complete the summative assessment. Competence must be reached in each question as the questions test specific outcomes for which competence is required.
