Who Should Enrol?

The course is suitable for any person, whether employed in a pharmacy or not, and interested in pursuing a career in Pharmacy. The course will provide the learner with scientific knowledge and practical skills needed to perform the support functions in pharmacy. Completion of work experience hours in all sectors of Pharmacy ensure that the learner is trained as a generalist who can practice in any category of Pharmacy once qualified.

Duration of the Course

The Occupational Certificate: Pharmacist's Assistant (Post-basic) course is designed to be completed within 12-months. However, the learner has a maximum of 24-months to complete the course as per the South African Pharmacy Council (SAPC) rules.

Please note that if the learner did not finish the course with the Academy within the contractual 12-months, the learner will have to pay for a re-admission.

Admission Requirements

- Qualified (and registered) Pharmacist's Assistant (Basic) (either via the Revised course or Occupational Certificate course)
- Competence was proven in an External Integrative Summative Assessment (EISA) (Basic) conducted by the SAPC.

Course Details

- The Occupational Certificate: Pharmacist's Assistant (Post-basic) course is a hybrid that combines online distance and in-person training.
- The Occupational Certificate: Pharmacist's Assistant (Post-basic) course is divided into three components: **Knowledge Component (KC)**, **Practical Skills Component (PC)** and **Work Experience Component (WC)**.
- The **Knowledge Component** combines pre-recorded presentations (the learner works through the course material independently) and online real-time presentations with facilitators.
- The Summative Assessments (Examinations) are done in-person at the selected Training Laboratory (Carletonville, Cape Town, Pretoria and Durban).
- The **Practical Skills Component** is presented in-person in the selected Training Laboratory.
- The **Work Experience Component** consists of work-based hours that should be completed in an A-graded pharmaceutical facility under the supervision of a tutor/preceptor.

Course Content

Key:

KC = Knowledge Component

PC = Practical Component

WC = Work-Experience Component

SA = Summative Assessment

POE = Portfolio of Evidence

KM / PM / WM = Curriculum Codes

Occupational Certificate: Pharmacist's Assistant (Post-basic) Course:

KC (KM-02)	4 credits = 40 notional learning hours	Lectures: Pre-recorded Audio-Visual Presentations for self-study Tutorials: 4 days x 1 hour tutorial per day	KC SA: 1 day: 2 sessions of 2-hour papers each
PC (PM-01)	6 credits = 60 notional learning hours	3 days of practical skills training in a training laboratory	PC SA: 1 day for 2 hours
WC (WM-01)	8 credits = 80 notional learning hours	8 days of work experience in a Community Pharmacy	SA of POE with Logbook and evidence

PB03	Non-sterile & Sterile Medicine Manufacture		
KC (KM-08)	6 credits = 60 notional learning hours	Lectures: Pre-recorded Audio-Visual Presentations for self-study Tutorials: 6 days x 1 hour tutorial per day	KC SA: 1 day: 2 sessions of 2-hour papers each
PC (PM-07)	8 credits = 80 notional learning hours	4 days of practical skills training in a training laboratory	PC SA: 1 day for 2 hours
WC (WM-04)	5 credits = 50 notional learning hours	8 days of work experience in a Manufacturing Pharmacy (simulated in atraining laboratory for learners not full- time employed in manufacturing)	SA of POE with Logbook and evidence
PB04	Administration & Housekeeping		
KC (KM-05)	3 credits = 30 notional learning hours	Lectures: Pre-recorded Audio-Visual Presentations for self-study Tutorials: 3 days x 1 hour tutorial per day	KC SA: 1 day: 1.5-hour paper
PC (PM-04)		2 days of practical skills training in a training laboratory	PC SA: 1 day for 2 hours
WC(WM-07)		4 days of work experience in a Community Pharmacy	SA of POE with Logbook and evidence
PB05	Anatomical Structures, Body Systems & Disorders, & Commonly Used Medicines		
KC (KM-15)	15 credits = 150 notional learning hours	Lectures: Pre-recorded Audio-Visual Presentations for self-study Tutorials: 315 days x 1 hour tutorial per day	KC SA: 2 days: 3-hour paper per day
PC (PM-12)		8 days of practical skills training in a training laboratory	PC SA: 2 days for 2 hours per day

PB06	Dispensing		
KC (KM-18)	12 credits = 120 notional learning hours	Lectures: Pre-recorded Audio-Visual Presentations for self-study Tutorials: 12 days x 1 hour tutorial per day	KC SA: 3 days: 2.5-hour paper per day
PC (PM-12)	14 credits = 140 notional learning hours	7 days of practical skills training in a training laboratory	PC SA: 1 day for 2 hours
WC (WM-12)	15 credits = 150 notional learning hours	19 days of work experience in either a Community or Institutional Pharmacy	SA of POE with Logbook and evidence
TOTAL (133 credits & 1330	KC: 44	PC: 52	WC: 37

In-Person Contact Time

- The applicant must travel to the selected Training Laboratory for the Summative Assessments (Examinations), Re-Assessments (if necessary), Practical Skills Training, and Manufacturing Simulation. In-person attendance at these academic events is mandatory.
- The applicant will bear the costs of travel, accommodation, and meals while attending these academic events.
- The Academic Calendar was designed to allow minimal travel to the Training Laboratory.
- The total contact in-person contact time is 44 days and is divided as follows:
 - Summative Assessments - Nine (9) Days (between 1 and 4 hours per day)
 - Practical Skills Training – Twenty-seven (27) Days (full days)
 - Practical Skills Assessment - Eight (8) Days (maximum 2 hours per day)

Work Experience Component (WC) Details

- Covers all required work-based learning across different pharmacy sectors.
- Learners must complete hours in multiple pharmacy categories.
- Host pharmacies must be **A-graded** by the SAPC but do **not** need SAPC training-facility status.
- Supervising pharmacists do not need tutor registration but must have **3+ years' experience**.
- The Academy arranges placements to ensure full sector exposure.
- Learners receive a **Portfolio of Evidence** to complete during WC.
- **Pos-basic Pharmacist's Assistant learners** complete **49 days** (8 hours/day):
 - Community (Retail) Pharmacy: **12 days**
 - Institutional (Hospital) Pharmacy: **10 days**
 - Primary Healthcare Clinic (PHC): **8 days**
 - Additional Community (Retail) or Institutional (Hospital) Pharmacy: **11 days**
 - Manufacturing Pharmacy or Simulation: **8 days**

Certification

After completing the course, the learner must complete the External Integrated Summative Assessment (EISA) with the SAPC. Once competence is proven in the EISA, the SAPC will register the learner as a qualified Pharmacist's Assistant (Post-basic) and the Academy will provide the Completion Certificate.

The Occupational Certificate:
Pharmacist's Assistant (Post-basic) Fee for
2026 is R43 850

The fee includes the Academy Admin Fee
and course fee but not the
SAPC registration and the annual fee

Course Fees 2026
